Hi Valois,
Thanks for the heads up.
No, I don't recall planning on providing an outline – I think the last time we met, Lynne was going to work on the outline and ORC would review...?
Thanks, Kimi

Hi Kimi,
I am reviewing my notes and recalled that you are still peripherally involved with the ESA part. I just wanted to let you know I am working towards proposing a new timeline for completing the BA, per my email below...

Are you going to provide an outline for the BA or did I get that wrong?

Thanks!

Valois

Subject: FW: EPA ESA Timetable for Dewey Burdock UIC Draft Permits

Hi Lynne & Lucita,

I just wanted to let you know I have proposed to Douglas and Sarah that we update the ESA timeline based on the work we need to do, now that we have the opportunity to update the Dewey-Burdock draft permit issuance date. As you know we had to make the ESA timeline really tight after we found we could incorporate permit requirements to address ESA mitigation measures.

Lynne - please start thinking of when you can have the BA document completed for internal EPA review without having to exert extraordinary super-human effort (merely ordinary super-human effort) and let me know. Below is the timeline with all the steps Douglas proposed before the furlough.

Lucita - please estimate of how long it would take for your review based on the other projects you are working on. Let's include a couple of iterations of review/addressing comments/review, etc.

Let's add these steps to the top of Douglas's list:

Complete Draft BA for internal review: (e.g. Feb 28?, March 8 or 15?)

Internal review completed and comments addressed (e.g. 3 weeks?, 4 weeks?)

Then we can adjust the dates below accordingly & propose the timeline to Douglas.

Do you have anything thoughts to add?

Thanks!

Valois

DELIBERATIVE/INTER-AGENCY PRIVILEGED/ATTORNEY WORK PRODUCT

Greetings Scott and Terry: we wanted to thank you again for your time on the phone last week discussing EPA's Underground Injection Control (UIC) permitting actions and associated compliance with ESA requirements. To give you a better idea of our road map to draft permit issuance for the Dewey Burdock project, I have outlined some major milestones FYI:

Ex. 5 Deliberative Process (DP)

Let us know if you have any questions, etc. and we look forward to being in touch next month.

Thanks,

Douglas Minter, MPH
